Election/Restrictions

This application contains claims directed to the following patentably distinct species:

Species A: Fig. 3

Species B: Fig. 4

Species C: Figs. 5 and 6

Species D: Fig. 7

The species are independent or distinct because the configuration of the guidewire tube and the ultrasound transmission member differ.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, zero claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3734

During a telephone conversation with Nathan Cassell on 9/17/07 a provisional election was made without traverse to prosecute the invention of species B, claims 1-7, 41 and 42. Affirmation of this election must be made by applicant in replying to this Office action. Claims 8-40 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nathan Cassell on 9/17/07.

Claims 8-40: Delete these claims.

Allowable Subject Matter

Claims 1-7, 41 and 42 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest in combination an elongate flexible catheter body with an ultrasound transmission member extending longitudinally through the lumen of the catheter body; a guidewire tube that contacts the

ultrasound member; where at least one coupling member for coupling the ultrasounds transmission member with a source of ultrasound energy.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
